TITLE CATALOG OF PERIODICALS

INCLUDING NEWSPAPERS AND SELECTED SERIALS

This title catalog lists the periodical holdings of the San Francisco Public Library and includes titles which have ceased publication as well as those currently received. The newspaper titles are listed in a separate alphabet at the end of the volume. Also listed are the titles which the library receives in cooperation with the Public Law 480 Program. Under this program, the Library of Congress acquires English language publications from Israel, United Arab Republic, India, Pakistan, Ceylon and Nepal and distributes them to selected libraries. A selection of government publications, annuals, symposiums, yearbooks, transactions and proceedings is included to bring the total number of titles to approximately 8,045.

The catalog lists holdings of Main Library subject departments, Civic Center, and the Business Branch Library. If a periodical is available to the public in more than one of these locations, a separate entry has been made for each location.

In general, the periodicals are listed under the latest title with "see" references from earlier titles. Journals, transactions, bulletins and proceedings are listed under the name of the society publishing them unless they have a distinctive title, in which case they are entered under it. The statement of our holdings is given in brief form, without an abbreviation for volume before the volume numbers, and with months abbreviated to two characters. The last bound statement, found immediately below the holdings, represents the latest bound volume in the library at the time this edition of the title catalog went to press. If this does not appear with a current title, it means either we do not bind the title as yet or no issues have been bound in the last year. If the publication is in any medium other than paper, i. e., microfilm, this is indicated in the holdings statement. If the title listing does not show a holdings statement, it can be presumed that the title is on order and the user may check with the department to see if issues have arrived.

This catalog was produced as part of our Computerized Serials System, which includes an arrival (check-in) program, binding notification form, update of the binding record, subscription order lists, plus additional catalogs arranged by subject and by foreign language. The computer programs are run by the EDP Center of the City and County of San Francisco utilizing an IBM 360/50 computer.

We gratefully acknowledge funds from the Bay Area Reference Center Project, which made possible the publication and distribution of this volume.
